

THE HEART OF MULTICULTURALISM

Peace in the world begins with conversion of heart. More than ever in today's world, we need to find ways to live in harmony with others who are culturally different, respecting and celebrating the gifts they bring to community. This workshop explores differences in cultural values, attitudes, perceptions of power, and communication dynamics in multicultural settings. Within a safe environment, participants explore the conscious and unconscious values and attitudes that affect their ability to relate to and work with people of various cultures. The workshop includes presentations, time for reflection and sharing, rituals and opportunities to practice new skills. It is open to anyone who wants to grow in cultural sensitivity and in the understanding of cultural diversity. CPE and Social Work credits available!
